The control layer for your AI.

AI reliable enough to run on its own.

Made-up facts and outdated info get flagged before they go out in your name.

WHO IT'S FOR

People who use AI daily for work that goes out in their own name.

Solo operators · Teams · Agencies

74%
of surveyed owners use or test AI tools.

78%
don't fully trust AI without oversight.

Bluevine 2026 SMB AI Trends Report, 942 US respondents.

HOW IT WORKS

01
Approve what's true.
Your facts, rules, material and skills, organized into spaces. Portable across your AI tools.

02
Your AI does the work.
Datum runs inside the AI you already use, like ChatGPT, Claude, Gemini and Copilot.

03
Datum checks it.
Anything that doesn't match gets flagged. No AI model inside, same result every time.

04
You get proof.
Every check comes with a signed receipt that can't be quietly changed.

MONTHLY LAUNCH PRICING

Plans from free to $499 a month, plus Agency and Enterprise. Full details on the website pricing page. FREE DURING BETA.

20+ **20+ beta testers.** Conner onboards users one on one.

"Good presentations on the first try, with almost no errors or hallucinations."

ART ROSENBERG, BETA USER.

Early user experience, not a measured error rate.

THE PROPOSED RAISE

$500,000 for 20%

At a proposed $2.5M post-money valuation.

Funds marketing, technology, storage and salaries.

Spending scales up as outreach proves out.

WHERE THE RAISE TAKES US

MONTH 9
200 paying customers
About $50K a month in revenue. Lean by design and profitable by about month 7. Spending scales up from there.

MONTH 18
About 600 paying customers
About $1.8M a year, profitable every month. Sets up the next raise from strength.

HOW WE GET THERE
Outreach and partnerships
A US rep with AI outreach tools, agency partners and a go-to-market strategist. Plus podcasts, newsletters and graphics.

SEE DATUM IN ACTION. Meet Conner for a demo, explore a pilot, or discuss the investment opportunity.
